

**Cold Spring Harbor Laboratory
WORKSHOP ON CEREAL GENOMICS
September 13 – 19, 2005**

MaizeGDB Exercise 1 of 2 to be completed on your own.

In the first of two exercises intended to familiarize you with how to use MaizeGDB, you will work through the online **MaizeGDB Tutorial** available through the MaizeGDB website: <http://www.maizegdb.org>

The screenshot shows a browser window titled "MaizeGDB" with the address bar containing "http://www.maizegdb.org/". The search bar contains "MaizeGDB" and "All" for the search scope. The website header includes the MaizeGDB logo and navigation links for "jobs" and "u". A green navigation bar contains a "home" link. The main content area is divided into two columns. The left column, titled "Information", lists various resources, with "MaizeGDB Tutorial" circled in red. The right column, titled "Welcome to MaizeGDB!", contains a welcome message, a feedback request, and a link to the "credits page". Below this is a "Funding Sources" section mentioning the "USDA Agricultural Research Service" and the USDA logo. The page footer indicates it was last updated on May 05, 2005.

Welcome to MaizeGDB!

Welcome to the home page of the Maize Genetics/Genomics Database | to provide a central repository for public maize information and present biological connections for the researcher with minimal effort as well as tools that directly address the questions of the biologist in an easy-to-use format.

We are looking for as much feedback as possible from all users. If you would like to see reviewed or changed, or if you find a bug, each page on the site has a feedback link in the corner. Clicking on that link will pop up a small box which you can fill out. Other than clicking and giving us your message! If you include your email address, we will contact you as soon as possible to your suggestions.

Thanks for taking the time to visit our site and give us suggestions. We are designed for the maize community, designed to meet your needs as effortlessly as possible and sending us your thoughts, you are helping to make this database a better community.

For additional background information, please see our [credits page](#).

Funding Sources

MaizeGDB is funded by the [USDA Agricultural Research Service](#).
